Att'y Docket No. 1814-19001
Date: January 16, 2004

Sir:

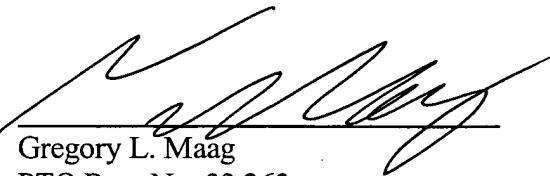

This Supplemental Information Disclosure Statement, including completed Form PTO 1449, comprises a list of additional pertinent art cited in a United Kingdom Search Report. This information is supplemental to the Information Disclosure Statement and Form PTO 1449 filed in the above-referenced case on December 5, 2003. Because this application was filed after June 30, 2003, copies of U.S. patents listed on Form PTO 1449 are not enclosed; however, copies of other cited publications are enclosed.

The submission of this Supplemental Information Disclosure Statement and the references submitted therewith is not an admission that the art cited is "prior" with respect to the present invention, nor is it a representation, that no better art exists. Applicant hereby reserves the right to swear behind or otherwise disprove any alleged "prior" nature of any art cited should the facts support and the situation warrant such an action. It is submitted that the art cited does not constitute a bar to the patentability of Applicant's invention under 35 U.S.C. § 102 or § 103.

Each item provided herewith was first cited in the U.K. Search Report for Application No. GB 0321345.1, dated December 17, 2003, which is a foreign counterpart application of the above-styled matter.

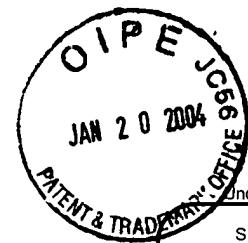

No Office Action on the merits has been received in the present application, therefore no fee is due.

Respectfully submitted,

Gregory L. Maag
